

James

design: Comforty

Comforty

James bed offers a distinct form, completed by the precise details, which make James a contemporary, yet very flexible piece of furniture.

Cosy and comfortable bed-head is build of square upholstery panels. Their soft lines express even stronger the comfort and homely feeling of its design.

The bed-head can be extended in height as well as by the additional side panels, to create a more impressive composition. Depending on the selected upholstery fabric, James will perfectly fit in to both, contemporary and more classic interiors.

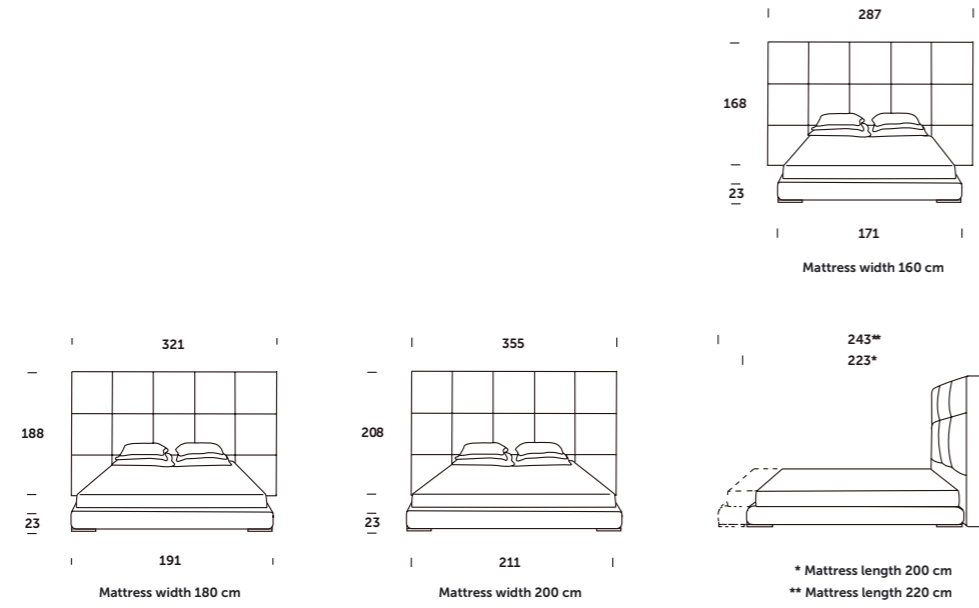

James is available in a wide range of fabrics and leather. Wooden legs are available in solid oak wood, in a range of colours from Comforty solid wood finishing collection. Optionally, they are available in solid wood, veneered.
